

L3001.APF2

LONG TRAVEL STAGES

Material

Aluminium.

Technical Notes

Used to bolt the Uniline units to a surface or to mount to units to one another with or

without an interface plate.
The clamps fit in the T-slots of any of the units.

Tips

Insert the lip of the clamp into the T slot of

the Uniline unit, position the clamp and if necessary shim to required height. Insert screws and tighten.
Not suitable for L3001.A100 units.
